AUTOMOBILE BURNED

A combination of coal oil and matches is thought to have caused a fire which badly damaged an auto belonging to Roscoe Carmichael, Saturday night. The machine had been driven from Paris by Mr. Carmichael's brother, who had in it some household supplies, including several boxes of matches and a large can of coal oil. Friction is supposed to have ignited the matches and the coal oil caught fire. The loss is covered by insurance. Mr. Carmichael was forced to jump from the machine to safety.

NEWS OF THE COURTS

In Police Court Judge Ernest Martin heard the case of Fred Hall, colored, charged with taking an automobile, belonging to Richard English, without first obtaining the owner's permission, and returning it in a damaged condition. Hall was held to the grand jury at the March term of Bourbon Circuit Court in the sum of \$300, in default of which he was sent to jail. Clarence Hill, a young white man, arrested by Patrolman George W. Judy, charged with exceeding the speed limit on Main street, entered a plea of guilty and was fined \$10 and costs.

MILLERS AGAINST BILL REGULATING BREAD

B. M. Renick and Hugh Brent, of the Paris Milling Co., attended a meeting of the Central Kentucky Millers' Association held in the Lafayette Hotel, at Lexington, which was largely attended by representatives of milling concerns all through the district.

At the meeting strong opposition was encountered to bills now before the Legislature requiring that only certain grades of flour, known as "straight or better," be used in manufacturing bread.

Flour consumption had diminished in the past year for some unaccountable reason, it was stated. Unsettled conditions throughout the country and the fact that many country consumers are bringing their corn to the small mill to have it ground were suggested as possible causes. Some bakers have complained recently that their sales were much under those of 1920-1921, despite the fact that flour is one of the cheapest foods on the market at the present time and that bakery products have been greatly reduced in price.

Discussion on labor conditions, wage reductions, wheat supplies, condition of the growing crop, the present cost of power and freight rates were heard during the afternoon session. C. H. Petry, of Mt. Sterling, president, presided at the meeting. A. M. Brock, of Carlisle, is vice-president and J. D. Allen, of Lexington, secretary-treasurer.
